

Policy for

Environmental Stewardship

Policy Statement

Bods recognises the need to protect the environment in which we live and work and use natural resources prudently across the whole of the service it provides. In view of such, Bods is committed to:

- Demonstrable continual improvement of its environmental performance to minimise adverse effects on the environment
- Using its influence to actively encourage responsible environmental practice by its suppliers & contractors, and raise awareness of these issues among the general public, partners and young people.
